FoodShouldTasteGood:

FOODSHOULDTASTEGOOD™ is committed to engaging consumers' growing desire and need for healthy, unique, and delicious snacks. [Read More](#)

Kate's Homemade Butter:

Kate's unique, sweet cream butter is made fresh daily in small batches from pasteurized cream by the Patry family in Old Orchard Beach , Maine . The family's heritage dates back four generations, to the turn of the 20th century, in nearby Minot , Maine . Patry, who was already making butter with his Uncle Roland by age 13, continues the Kate's Butter pledge to never use artificial growth hormones in any of the cows that produce the milk Kate's uses, and no artificial colors, preservatives or additives in any of their butter products. [Read More](#)

Maine Wineries:

Many of us from New England associate Maine for its beautiful coast, light houses and of course lobster, but how about wine? Below, you will find some information that might surprise you. If you get to visit any of these wineries, I would love to hear your thoughts. [Read More](#)

Island Oasis: A bit of the tropics right here in New England! Containing the perfect blend of fresh mint, tangy lime and sweet sugarcane, Island Oasis' Mojitos require no muddling, a process by which the ingredients are gently mashed. Instead, the mix needs only be blended with the right amount of ice to produce a perfectly consistent cocktail in just ten seconds. And, like all Island Oasis mixes, the Mojito Frozen Drink Mix is all natural with no artificial colors or flavoring. [Read More](#)

for 25 years, since 1983
Roasted Fresh.
Delivered Daily

I don't know about you, but I love food products that are all natural, have no artificial colors or flavoring, and taste great, but what about a product that covers all of the above while making entertaining a bit easier and smoother (no pun intended). This frozen adaption of the Mojito contains a perfect blend of fresh mint, tangy lime, and sweet sugar cane. No need to muddle the ingredients together, it is all done for you! Jjust add the right amount of ice, blend, and you have a smooth-cool Mojito in just 10 seconds.

First introduced in the early 1900s in Havana, the Mojito has long been a favorite summer drink on Cuban shores. In the early 2000s, the drink made a strong debut in the US and demand continues to rise. By offering a frozen adaptation timed to launch with the warmer weather, Island Oasis takes the temperature down a few degrees to offer the "coolest" Mojito yet.

"Our Frozen Mojito Mix was developed in response to a market need for a new and refreshing 'twist' on a now contemporary classic," said Barry Boehme, VP of marketing at Island Oasis. "In addition to the traditional Mojito flavor, restaurants and bars can add variety and excitement to their Mojito drink selection with an assortment of flavored frozen Mojitos. By simply adding any one of our other all-natural fruit mixes such as strawberry, mango or raspberry, they can serve up a number of unique tasting drinks"

Island Oasis frozen drink mixes are packed in twelve 32 oz. cartons and shipped frozen to ensure quality; one case yields approximately ninety-six 12 oz cocktails.
